COMMISSION IMPLEMENTING REGULATION (EU) …/...

of XXX

amending Implementing Regulation (EU) 2023/2834 as regards fixing representative prices in the poultrymeat and egg sectors and for egg albumin

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007[1], and in particular Article 183, first paragraph, point (b), thereof,

Having regard to Regulation (EU) No 510/2014 of the European Parliament and of the Council of 16 April 2014 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products and repealing Council Regulations (EC) No 1216/2009 and (EC) No 614/2009[2], and in particular Article 5(6), point (a), thereof,

Whereas:

(1) Commission Regulation (EC) No 1484/95[3] lays down detailed rules for implementing the system of additional import duties in the poultrymeat and egg sectors and for egg albumin, and establishes the method for fixing representative prices.

(2) Regulation (EC) No 1484/95 requires that the representative prices are reported in Annex I to that Regulation that is published in the *Official Journal of the European Union*. Given that these prices are amended frequently, this requirement results in a significant number of amending Regulations, which constitutes a notable administrative burden.

(3) To ensure faster dissemination of the representative prices, increase transparency for economic operators and national authorities, and reduce the administrative burden on the Union institutions, the method of publication of those representative prices should be modernized.

(4) The power to calculate representative prices in accordance with the established methodology and frequency should remain with the Commission to ensure market stability. However, the publication of these prices should be carried out through electronic means via the Integrated Tariff of the European Union database (TARIC). This method of publication ensures immediate and clear access for all interested parties in line with the simplification objectives of the Commission.

(5) In the interest of improving the coherence, transparency and accessibility of Union law, the provisions regarding representative prices in the poultrymeat and egg sectors and for egg albumin have been integrated into Commission Implementing Regulation (EU) 2023/2834[4] by Commission Implementing Regulation (EU) …./….[5][PLAN/2025/2174, to be completed by OP].

(6) To ensure increased transparency for economic operators and national authorities, the methodology of fixing of those representative prices should also be included into Implementing Regulation (EU) 2023/2834.

(7) Implementing Regulation (EU) 2023/2834 should therefore be amended accordingly,
